Graf, William L., 1947-

Plutonium and the Rio Grande : environmental change and  
contamination in the nuclear age / William L. Graf.

p. cm. Includes bibliographical references and index.

ISBN 0-19-508933-2

1. Plutonium—Environmental aspects.
2. Radioactive pollution of water—Rio Grande Watershed.
3. Radioactive pollution of sediments—Rio Grande Watershed.
4. Los Alamos National Laboratory.

# Contents

- 1. Introduction and Related Research, 3**
  - The Basic Issue, 3
  - Specific Objectives, 7
  - Related Research on Radionuclides, 8
  - Related Research on Heavy Metals, 13
  - Summary and Generalizations, 15
- 2. Plutonium and Los Alamos, 17**
  - The History of Plutonium, 17
  - Plutonium and Los Alamos, 20
  - The Nature of Plutonium, 26
  - Measurements and Safe Limits, 29
- 3. The Northern Rio Grande Basin, 32**
  - Drainage Network, 32
  - General Geomorphology, 33
  - Geology and Sediments, 38
  - Climate, 43
  - Vegetation, 45
  - Sources of Hydrologic Data, 47
  - Water Yield and Annual Floods, 51
  - Regional Stream Flows and Floods, 57
- 4. Fluvial Sediment, Forms, and Processes, 60**
  - Types and Sources of Sediment Data, 60
  - Sediment Characteristics of the Rio Grande, 63
  - Regional Sediment Budgets, 66

- Time Series for Sediment Transport, 69  
Annual Variation in the Regional Sediment Budget, 73  
Sources of Geomorphic Data, 74  
Channel Changes, 1940s–1980s, 76  
Near-Channel Landforms, 77  
Near-Channel Deposits, 79  
The Distribution of Flood Plains, 81  
The Depth of Deposition, 1948–1985, 83
- 5. Engineering Works, 85**  
Historical Background, 85  
Channelization Works, 89  
Dams, 91  
Implications for Plutonium Mobility, 95
- 6. Riparian Vegetation, 97**  
Riparian Vegetation Communities, 97  
The Connection Between Vegetation and Geomorphology, 101  
Dating Deposits with Vegetation, 105  
Vegetation as a Radionuclide Reservoir, 107
- 7. Plutonium in the Rio Grande System, 108**  
Inputs from Fallout, 108  
Inputs from Los Alamos, 114  
Remobilization from Storage, 126  
Plutonium in River Water, 127  
Plutonium in River Sediments, 132  
Plutonium in Reservoir Deposits, 134  
Plutonium in Los Alamos Canyon Sediments, 136
- 8. Annual Plutonium Budget for the Rio Grande, 140**  
Sources of Data, 140  
Methods of Calculation, 143  
Magnitude of Error, 144  
Annual Plutonium Budgets, 145  
The Relationship Between Laboratory and Fallout Contributions, 149  
Particular Cases of Plutonium from Los Alamos, 150
- 9. Sediment and Plutonium Storage Upstream from Cochiti, 154**  
Representative Reaches, 154

San Marcial Reach, 196  
Summary, 198

**11. Simulation of Sediment and Plutonium Dynamics, 200**

Objectives of the Model, 200  
Outline of the Model, 203  
Model Input, 210  
Model Output, 211  
Simulation Results, 214  
Varying the Input Mass, 216  
Varying the Input Concentration, 218  
The Effect of Time, 219  
Geographic Variation, 221  
Conclusions from Simulations, 224

**12. General Lessons and Conclusions, 226**

General Guidelines, 226  
Specific Sediment-Sampling Procedures, 230  
The Los Alamos Case as an Example, 234  
Natural Science for Plutonium, 234  
Public Policy for Plutonium, 237  
Politics of Plutonium, 238  
Futures, 239

**Appendixes, 243**

**A. Units of Measure**

A.1 Prefix Terms for Units of Measure, 244  
A.2 Units of Measure for Isotopic Decay Rates, 244  
A.3 Concentration and River Flow Conversions, 244

B. Hydrologic and Sediment Transport Data	
B.1 Water and Sediment Data from Stream Gages,	245
B.2 Water, Sediment, and Plutonium Data for Los Alamos Canyon,	254
B.3 Summaries and Correlations for Gaging Stations,	255
B.4 Mass Budget Data Summary Near Los Alamos, 1951,	255
B.5 Mass Budget Data Summary Near Los Alamos, 1952,	256
B.6 Mass Budget Data Summary Near Los Alamos, 1957,	256
B.7 Mass Budget Data Summary Near Los Alamos, 1968,	257
B.8 Assumptions and Data Sources for Mass Budget Calculations,	257
B.9 Annual Budget Calculations for Suspended Sediment, 1948-1985,	258
B.10 Annual Budget Calculations for Bedload Sediment, 1948-1985,	260
B.11 Annual Budget Calculations for Total Sediment, 1948-1985,	262
B.12 Suspended, Bedload, and Total Load Sediment Budget Summary for Critical Years,	263
C. Sediment Particle-Size Data,	264
D. Geomorphologic Data	
D.1 Partitions for Channel and Flood-Plain Area Measurements,	269
D.2 Channel and Flood-Plain Area Measurements,	270
E. Plutonium Data	
E.1 Plutonium Concentrations in River Water, Northern Rio Grande,	271
E.2 Plutonium Concentrations in River Water, Rio Grande Tributaries in the Vicinity of Los Alamos, 1977-1988,	271
E.3 Plutonium Concentrations in Bedload Sediments, Northern Rio Grande, 1974-1986,	272
E.4 Plutonium Concentrations in Flood-Plain Sediments, Northern Rio Grande, 1974-1988,	272
E.5 Plutonium Concentrations in Reservoir Sediments, Northern Rio Grande,	273
E.6 Plutonium Concentrations in Fluvial Sediments, Los Alamos Canyon,	274
F. Topographic Maps, U.S. Geological Survey Quadrangles, Showing the Rio Grande Between Española and Elephant Butte,	275
G. Sources of Aerial Photographs for the Northern Rio Grande,	276
H. Sources of Historical Ground Photographs for the Northern Rio Grande,	277
I. Contact Persons for Northern Rio Grande Data,	278
J. Basic Formulas Used in the Riverine Accounting and Transport Program,	279
Notes,	281
References,	303
Index,	323
